35 01 010 Commodity code

Table columns IPO (8a) and OPO (8b):

Indicate the **first 4 digits of the Harmonised System sub-heading code** of the goods to be placed under the inward or outward processing procedure.

The **8-digit Combined Nomenclature code** must be given where any of the following is applicable:

- equivalent goods or the standard exchange system are to be used,
- **goods are covered by Annex 71-02,**
- goods are not covered by Annex 71-02 and economic condition code 22 (de minimis rule) is used.

35 01 012 Goods information / Additional information

Indicate any relevant additional information, including known TARIC measure type, applicable country code or any textual information.

In case of application for inward processing (IPO), indicate whether the nonUnion goods would be subject to an agricultural or a commercial policy measure, a provisional or definitive anti-dumping duty, a countervailing duty, a safeguard measure or an additional duty resulting from a suspension of concessions, if they were declared for release for free circulation.

35 01 020 Description of goods

Table columns IPO (8a) and OPO (8b):

Indicate the trade and/or technical description of the goods.

The trade and/or technical description should be sufficiently clear and detailed to enable a decision to be taken on the application. Where it is planned to use equivalent goods or the standard exchange system, give details about commercial quality and technical characteristics of the goods.

35 01 030 Goods quantity

Table columns IPO (8a), OPO (8b), EUS (8c) and TEA (8d):

Enter the total quantity of the goods intended to be placed under the special procedure during the period of validity of the authorisation.

If the application concerns goods under the special provisions (Part A and B) contained in Part one, Preliminary Provisions, Section II of the Combined Nomenclature (goods for certain categories of ships, boats and other vessels and for drilling or production platforms / civil aircraft and goods for use in civil aircraft), it is not necessary to give details about the quantity of the goods.

The guarantee and reference amount calculation is to be based on the total quantity of goods intended to be placed under the special procedure during the period of validity of the authorisation.

35 01 040 Goods value

Table columns IPO (8a), OPO (8b), EUS (8c) and TEA (8d):

Enter the total value of the goods intended to be placed under the special procedure in the currency of the authorisation issuing Member State.
